

It is the policy of the company to maintain an Integrated (Quality, Environment and Health & Safety) Management System (IMS) that is designed to meet the requirements of the ISO 9001, ISO 14001 and ISO 45001 standards and is in pursuit of our core values together with our primary quality, environment and health & safety management objectives.

At SmartParc we are committed to:

- the protection of the environment, including the prevention of pollution;
- using industry best practice to control waste, prevent pollution, conserve energy and procure goods and services in a responsible way;
- operating in a socially responsible way and wherever possible contributing to environmental improvement and sustainable development;
- meeting all of our compliance obligations in line with the industry codes of practice, government guidelines and appropriate legislation and regulations; and
- continual improvement of our environmental management system to enhance environmental performance.

Our objectives are therefore to:

- minimise the wastage of materials and promote recycling options;
- conserve water, paper and energy wherever possible;
- protect wildlife habitats, flora and fauna, and archaeological and heritage sites;
- be a good neighbour, contacting adjoining owners, local residents and others impacted by our projects to ensure they are kept informed throughout the duration of the work and;
- encourage our employees and our partners to integrate environmental issues into the decision-making process.

This Policy is available to the public and all interested parties upon request. It is communicated to all person(s) working for or on behalf of SmartParc (as part of our induction training) and is available to all employees via the IMS.

This Policy is reviewed to ensure its ongoing suitability, as and when there are key changes (e.g. in customer, legislative, operational requirements etc.) and annually as a minimum.
